A. Situation analysis

Description of the disaster

The start of the rainy season in mid-June 2016, has brought more challenges with flash floods recently affecting over 177,035 people across sixteen states of Sudan. The flooding has affected over 177,035 people whose houses and latrines have been destroyed in addition to destruction of schools, health facilities, roads, bridges among other infrastructure. To date, more than 35,407 families are reported to have been affected in the states of Khartoum, Northern State, Sennar, North Kordofan, South Kordofan, Kassala, Gezira, Gedarif, Central Darfur, White Nile and North Darfur according to the rapid assessment reports of the Sudanese Red Crescent Society branches, Civil Defence and HAC. At least 36 people are reported to have died (according to the Sudan National Council of civil defence) and 147 injured across Sudan since the start of heavy rains. Over 35,407 houses are reported to have been destroyed, with over 15,574 houses partially damaged, over 2,161 latrines damaged and 416 public institutions, mostly schools, have been affected (please refer to Table 1 below for more details).

Based on forecasts from the Sudanese Meteorological Authority and the Ministry of Water Resources, more rains are expected. The water levels in the Nile River have increased, surpassing the water level recorded during the 1988 flooding. While the humanitarian actors in Sudan continue to provide emergency assistance in the affected states, critical needs remain in emergency water sanitation, basic health, safe water, and environmental sanitation.

Summary of the current response

Overview of Host National Society

The Sudanese Red Crescent Society (SRCS) has been actively collaborating with the government and non-governmental organizations from the onset of the emergency to provide assistance to the affected House Holds. The National Society (NS) mobilized 3,219 volunteers and activated its Emergency Operation Centres at the headquarter and branch level. The SRCS is seeking international assistance through this Emergency APPEAL to complement the ongoing in-country resource mobilization efforts. The NS is actively participating in National and state level coordination meetings on the floods response.

The following summarizes the SRCS services provided to the affected population since the end of June 2016:

Emergency shelter and basic non-food items

From the SRCS central stocks, the National Society has provided emergency shelter (tarpaulins) and basic non-food items (NFIs), including blankets, sacks, kitchen sets, mosquito nets, soap and jerry cans, to 8,000 people (1,600 HHs) in four states (Sennar, Gezira, West Kordofan and Kassala). In addition to items distributed from NS pre-positioned stock SRCS also distributed relief items with support from ICRC and UNHCR. SRCS Kassala and Sennar branch received additional NFIs for 500 HHs each donated by UNHCR.

Others Action taken by SRCS:

SRCS branches has mobilized its volunteers and all the preparedness and emergency response teams and emergency affiliates, to assist the flood affected households extract and discharge water from their homes, conduct search and rescue and first aid service, as well as conduct the initial rapid assessment for losses and damages.

Sudanese Red Crescent Society (SRCS) State Branch's volunteer interventions:

- Distribution (500) empty sacks (for use in making temporary dyke barricades).
- 715 volunteers mobilized for assessment, search and rescue support, discharge of water from flooded areas, first aid, psychosocial support, rapid assessments and registration of losses and damages to houses and public properties.
- SRCS Head Quarter (HQ) from own stock (donated by ICRC) supported 1,600 households with NFIs (1,100 kitchen sets, 3,200 blankets, 2,600 sleeping mats, 3,200 mosquito nets, 1,600 tarpaulins for shelter, 1000 jerry cans as well as 5,000 pieces of soap).
- Distribution of 600 tarpaulins (200 from SRCS and 400 from UNHCR)
- Distribution of 1100 blankets (100 SRCS and 1000 from UNHCR).
- Distribution of 1100 Sleeping Mats. (100 SRCS and 1000 from UNHCR).
- Distribution of 600 Cooking Sets (100 SRCS and 500 from UNHCR).
- Distribution of 1200 ready meals (initiative from SRCS Volunteers).
- Initial primarily rapid assessment conducted by SRCS volunteers.
- Health: SRCS volunteers provided first aid services to the affected people, rescue and injured evacuation, provided psycho-social support and first aid services to the affected population.
- Volunteer management: 715 volunteers are involved (Emergency Action Teams (EAT), National Disaster Response Team (NDRT), Dead Body Management (DBM), Branch Disaster Response Team(BDRT)).
- Hygiene promotion and vector control, health education, environmental protection, cleaning campaigns.

The SRCS is coordinating their activities with respective governmental and non-governmental actors at state and national levels through the established coordination mechanisms, including through the Floods Technical Committee of HAC, sector clusters, Flood Task Force, and other fora. The National Society is also sharing information with the in-country partner national societies (PNSs) on a regular basis through its Central Emergency Operation Room.

Sudan: Flash Floods overview of SRCS Response 17th. July to 27th September 2016:

The falling of the rains continues at the Ethiopia High land and most of the Sudan States are affected, thus increased the level of the water of the Nile that damages the terraces built at the banks of the Nile in Sinnar, White Nile, El-Jazeera and Khartoum States. This leads to losses in cultivated lands and properties.

The table below shows the numbers of families received & currently receiving assistance with Food & NFI from the Sudanese Red Crescent Society in the affected states until 21st. August 2016

| State | Nu. HHs. Received support | Remarks |
|------------------|---------------------------|---|
| Sinnar State | 3,800 | NFIs to 500 HH from SRCS Stock, NFIs to 500 HH from UNHCR, NFIs to 2000 HH from Swiss RC, Food Item 750 HH + 50 Tent from King Suliman humanitarian Center (KSHC) |
| Kassala State | 7,537 | NFIs to 500 HH from SRCS Stock, NFIs to 500 HH from UNHCR, NFIs to 5,733 HH from Khalifa Al-Nahian Charity foundation, NFIs to 400 HH from QRC, Food Item to 404 HH from WFP. |

SRCS increased the number of volunteers by taking measures to set up 43 observation points (with an increase of 6 points) and early warning on the Nile course through a number of 1,412 volunteers (with an increase of 829 volunteers).

No. of Volunteers at the Nile monitoring points

Priorities and immediate needs:

- As a result of the water accumulation led to water contamination in some areas and insects breeding such as (flies, mosquitoes etc.) thus led to the deterioration of environmental sanitation.
- Intervention needed in the area of environmental sanitation and drinking water treatment.
- Rebuilding the collapsed Latrines.
- Health Education and Personal Hygiene.
- Collection of garbage and animal's waste that swept away by the floods.
- Spraying, sucking pumps, cleaning and digging tools, pesticides and empty sacks for protection terraces.
- Volunteers' management support.

Overview of Red Cross Red Crescent Movement in country

The IFRC Country Office in Sudan provides coordination and facilitation with movement partners with an interest in supporting the humanitarian efforts of the SRCS through bilateral and multilateral meetings.

The IFRC Country Office and SRCS will continue to attend regular United Nations (UN) led coordination meetings as appropriate and applicable. This includes participation in the Humanitarian Coordination Country Team (HCT), security, health and logistics sector meetings. In addition, the IFRC holds bilateral discussions with foreign missions and other non-movement related key partners, including specialized UN agencies as part of information sharing, coordination mechanisms and forming partnership for support.

In operational aspects, the IFRC has been supporting the SRCS Directorate of Programmes and Disaster Management Department with coordination, information consolidation, reporting, resource mobilization and other technical support. IFRC will continue to provide technical inputs in planning and implementation, and undertake monitoring and evaluation of the operation. IFRC, through the Flood Emergency APPEAL operation, will support SRCS in their immediate emergency response to the needs of the flood-affected people.

The PNSs working with presence in Sudan include Danish Red Cross, German Red Cross, Netherland Red Cross, Saudi Arabia Red Crescent, Spanish Red Cross, Swedish Red Cross, Swiss Red Cross and Qatar Red Crescent. The PNSs have been regularly updated on the SRCS floods response activities through the Emergency Operation Meetings at the SRCS headquarters Central Emergency Room.

Movement Coordination

SRCS, IFRC and PNSs participate in regular emergency operation meetings. All issues, including potential bilateral and multilateral actions, are discussed. Information sharing and coordination is also taking place on a regional level.

How we work

All IFRC assistance seeks to adhere to the Code of Conduct for the International Red Cross and Red Crescent Movement and Non-Governmental Organizations (NGOs) in Disaster Relief and the Humanitarian Charter and Minimum Standards in Disaster Response (Sphere) in delivering assistance to the most vulnerable.

The IFRC's vision is to inspire, encourage, facilitate and promote at all times all forms of humanitarian activities by National Societies, with a view to preventing and alleviating human suffering, and thereby contributing to the maintenance and promotion of human dignity and peace in the world.

Saving lives, changing minds.

The IFRC's work is guided by Strategy 2020 which puts forward three strategic aims:

1. Save lives, protect livelihoods, and strengthen recovery from disaster and crises.
2. Enable healthy and safe living.
3. Promote social inclusion and a culture of non-violence and peace.
