EARLY ACTION PROTOCOL ACTIVATION

The Honduran Red Cross has activated its Early Action Protocol for Tropical Storm flooding. On 7 October 2022, the activation was reached when the forecast indicated that the impact of Tropical Storm Julia was expected, COPECO, reported that Tropical Storm Julia, was located near the northern coast of Colombia about 1,000 kilometres east of the Caribbean coast of Nicaragua and was moving with a speed of 30 km/h towards Central America. Julia was forecasted to become a hurricane on Saturday 8 October and enter the Nicaraguan territory on Sunday morning. Cloud bands from this cyclone are forecasted to produce rainfall in the Department of Gracias a Dios from early Sunday morning, with an expected cumulative 4-day rainfall impact of 100mm to

300mm.

Activation Overview

- June 2022: EAP approval
- 7 October 2022: Threshold has been reached
