

# ARMENIA

## 2025 IFRC network country plan **extract**

Funding Requirement **CHF 13.3M**

19 December 2024

### In support of the Armenian Red Cross Society

**12**

National Society branches

**69**

National Society local units

**371**

National Society staff

**1,792**

National Society volunteers

### People to be reached

**90,000**

Ongoing emergency operations

**11,000**

Climate and environment

**8,000**

Disasters and crises

**35,000**

Health and wellbeing

**45,000**

Migration and displacement

**670**

Values, power and inclusion

### IFRC network multi-year focus

#### Emergency response

- Population Movement

#### Longer term needs

- Disaster risk reduction and preparedness
  - Protracted displacement
- Health, water, sanitation and hygiene
- Elderly care • Climate change adaptation

#### Capacity development

- Digital transformation
- Community Engagement and Accountability
  - Branch development
- Youth engagement & volunteer management
  - Resource mobilization

### Key country data links

**INFORM Severity rating**

**Medium**

**INFORM Climate Change Risk Index**

**High**

**Human Development Index rank**

**76**

**World Bank Population figure**

**2.8M**

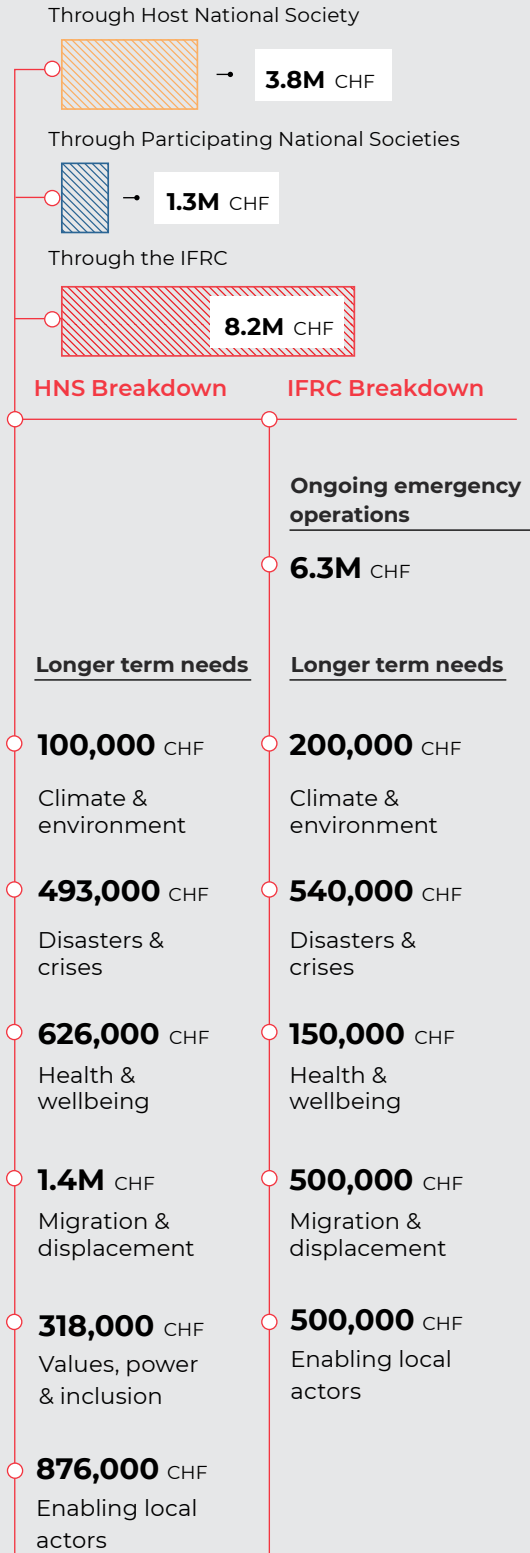

**World Bank Population below poverty line** **24.8%**

# NATIONAL SOCIETY PROFILE

As per 2024 Plan. To be updated in full 2025 Plan, as per need

The **Armenian Red Cross Society** is an auxiliary to the public authorities in the humanitarian field and the largest voluntary organization in the country. It was founded in 1920 and admitted to the International Federation of Red Cross and Red Crescent Societies (IFRC) in 1995.

The National Society has a network of 12 branches, one territorial branch and 69 community sub-branches. It has 371 experienced and committed members of staff, of whom 75 work in HQ, 187 in regional branches and 109 in Gyumri Care Centre and 1,792 are active volunteers, with whom an agreement as defined in the newly introduced law about volunteer work have been concluded.

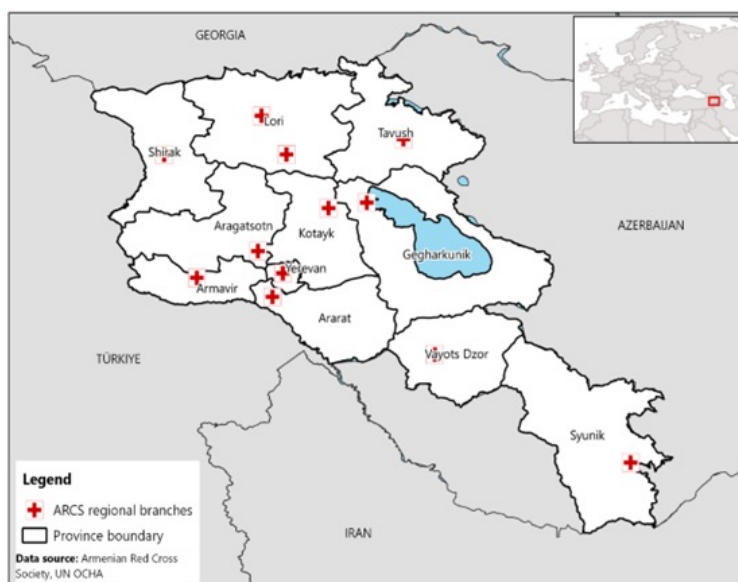

By implementing disaster risk reduction projects in recent years, the National Society has formed strong disaster management capabilities. It has equipped seven experienced disaster response teams at headquarters and branch level, and plans to train and equip an additional four, to cover all regions of Armenia.

In addition to disaster preparedness and response services, the National Society is well recognized in the country for its provision of social services and healthcare, including mental health and psychosocial support, and assistance to migrants and displaced groups. The National Society is well positioned as a key humanitarian actor to the Government in supporting disaster management and response activities.

The Armenian Red Cross Society Strategy 2022-2026 defines three strategic goals for the Armenian people:

- To better anticipate and respond to disasters and crises, and recover faster
- To lead safe, healthy and dignified lives, with opportunities to thrive
- To mobilize for inclusive and supportive communities

In 2023, the Armenian Red Cross Society reached more than 270,000 people through its disaster response and early recovery programmes.

Map of the Armenian Red Cross Society branches

*The map does not imply the expression of any opinion on the part of the IFRC or the National Society concerning the legal status of a territory or its authorities*

**The International Federation of Red Cross and Red Crescent Societies (IFRC)** is the world's largest humanitarian network, with 191 National Red Cross and Red Crescent Societies and around 16 million volunteers. Our volunteers are present in communities before, during and after a crisis or disaster. We work in the most hard to reach and complex settings in the world, saving lives and promoting human dignity. We support communities to become stronger and more resilient places where people can live safe and healthy lives, and have opportunities to thrive.

### About the plan

*This extract will be replaced by the full plan soon.*

The plan reflects the priorities of the host National Society, the IFRC and National Societies providing international support, for 2025 and subsequent years. It is aligned with IFRC [Strategy 2030](#), representing the collective ambitions of the IFRC membership, and is the result of a joint planning process and will serve for joint monitoring and reporting. It will be revised on an annual basis to adjust priorities and funding requirements to the needs in-country.

### Explanatory note on funding requirements

- The total funding requirements show what the IFRC network seeks to raise for the given year through different channels: funding through the IFRC, through participating National Societies as bilateral support, and through the host National Society from non-IFRC network sources. All figures should include the administrative and operational costs of the different entities
- Host National Society funding requirements not coming from IFRC network sources can comprise a variety of sources, as demonstrated when reporting on income in the [IFRC Federation-wide Databank and Reporting System](#)
- Participating National Society funding requirements for bilateral support are those validated by respective headquarters, and often represent mainly secured funding
- IFRC funding requirements comprise both what is sourced from the IFRC core budget and what is sought through emergency and thematic funding. This includes participating National Societies' multilateral support through IFRC, and all other IFRC sources of funding
- Figures for the years beyond 2025 most often represent partial requirements that are known at time of publication. Many National Societies have annual internal approval processes for funding requirements, and lower figures do not mean a decrease in funding requirements in future years
- Missing data and breakdowns: data may not be available from all IFRC network members for funding requirements. This may lead to inconsistencies across different reporting tools as well as potential under-estimation of the efforts led by all
- Reporting bias: the data informing this Federation-wide overview is self-reported by each National Society (or its designated support entity) which is the owner and gatekeeper, and responsible for accuracy and updating. IFRC tries to triangulate the data provided by the National Societies with previous data and other data in the public domain
